AMERICAN ADOPTION MIGHT SET
NEW WORLD CALENDAR ROLLING

A good deal has been written about the promised excitement in the next session of Congress. Foreign aid, armament, taxes, the budget and the predicted "Truman deal" reforms should all produce some fireworks. But, as usual, Congress will be faced with less publicized bills which have been waiting patiently, with hat in hand, through several sessions for a hearing.

An interesting item in the latter group is the proposal that Congress endorse a world calendar. Almost everybody seems to be in favor of this reform put forward by the World Calendar Association. Seventeen governments are on record as being for it. It is approved by churches, business associations, labor organizations, banks, railroads, air lines, insurance companies, educators and many others. Its only apparent enemy is inertia.

Bills were introduced in the 79th and 80th Congresses to make the Association's perpetual calendar official. They got no more action than a reference to committee. Whether there will be anything more done with the idea by the new Congress probably depends on the press of urgent business and the interest of the public. But the proposal has a lot of obvious merit.

The calendar under consideration is the sole survivor of some 500 that were investigated by the League of Nations over the past 20 years. Developed by an Italian priest more than 100 years ago, it divides the year into 12 months of equal quarters.

The year and each succeeding quarter begin on Sunday. There are 13 weeks and 91 days (13 Sundays and 78 week-days) in every quarter. The first month of the quarters has 31 days; the second and third, 30 days. To compensate for the extra day there would be a world holiday, or Worldday, between Dec. 30 and Jan. 1. In leap years there would be another Worldday following June 30.

Thus every day of the month would fall on the same day of the week every year.

Uniform months and quarters would undoubtedly save a lot of time in many lines. Business could figure billings, pay periods, interest payments and so on in a more orderly fashion. Fiscal years would always start on the same day. Public carriers would not be obliged to make new schedules annually. Holidays would be fixed—with a nice weekend vacation for the Monday Christmas and an equally pleasant Saturday-Worldday-Sunday for New Year's.

It seems rather odd to reflect that the western world hasn't done anything about its rather cumbersome calendar since Pope Gregory XIII corrected, in 1582, Julius Caesar's calendar which dated from 45 B. C. And some of the eastern countries measure the year by even older and less accurate methods.

With the start and support that calendar reform already has, it is quite likely that American adoption would really start the ball rolling. But if that should happen, another question arises. Since a universal calendar would advance the cause of world unity, at least in the division of time, would the Russian government follow its usual custom and veto the whole idea?

COMMUNICATION

Jacksonville Journal Courier Co.

Dear Sirs:—

Referring to an editorial appearing recently in the Jacksonville Journal and Courier entitled "Getting Out of Japan" which states "Dennis McEvoy, President of the American Chamber of Commerce in Japan, makes a good case for withdrawal of American troops from Japan in an article in Forum Magazine."

I hope you will give equal publicity to the opinion of General Jonathan M. Wainwright to the contrary. The Illinois State Register of November 5, 1948, states that General Wainwright "believes there must be a long occupation of Japan. He doesn't believe the Japanese can be trusted." An editorial in the Illinois State Journal, November 6, 1948, says: "General Jonathan M. Wainwright, who suffered untold indignities and physical torture in Japanese prison camps near Manila, in Formosa and north of Mukden, Manchuria, bluntly told reporters during his visit to Springfield that a long occupation of Japan is essential to peace and security in the Pacific."

I agree with General Wainwright and believe that the advice of Mr. McEvoy, as quoted in your editorial, to withdraw American troops from Japan is advice, which if followed, is going to cause plenty of trouble for us and our children.

I believe that we should dig in deep in Japan to stay forever. It is a well known fact that Japanese have highly competitive spirit and oceans of pride. They will not rest until they have evened the score and gone one better. In their eyes their only mistake was not winning and they no doubt will take advantage of the new science to strike us whenever they find the opportunity. In my opinion the Japanese will signalize the day we make Japan to start to work on bombs and rockets. Their scientists will seek further enlightenment in the arts and sciences of total destruction. We should not forget that the Japanese built the world's largest battleship, the Yamato. They should not be turned free to try their hands at building the world's largest rockets, and most deadly atomic bombs.

Humanity, both to our People and the Japanese People require that the Japanese be perpetually restrained by as much force as is necessary. We can not afford to experiment.

Sincerely yours,
Frank R. Sullivan,
Attorney-at-law,
Springfield, Ill.

Send Christmas Seals
To 12,000 Citizens

Mrs. Orville Foreman of 1313 Mound avenue is directing the annual tuberculosis Christmas seal sale, which has just been launched by the Morgan County Tuberculosis and Health League. Assisting her are Mrs. William Cole of 1122 West State street, and Miss Helen Sweeney of 1005 South East street.

Mrs. Cole has charge of the bond sale mailed to the larger givers. The secretary of the tuberculosis association is Miss Miriam Russell of 218 Westminster street, who is also an active worker in this field. The typing and folding of these 12,000 letters is done by Mrs. Florence Stone at Oaklawn Sanatorium.

"These volunteer workers have done a wonderful job and have faithfully carried out this rather tedious undertaking," said Rev. McKendree Blair, president of the group carrying on the fight for the stamping out of tuberculosis. "They and many others, who realize the importance of protecting the young people of the community, have given a yeoman's service for many years. Dr. T. O. Hardesty, Dr. and Mrs. A. L. Adams were among the earliest

workers in the fight and were instrumental in the establishment of Oaklawn Sanatorium."

"But the sanatorium, unaided, cannot accomplish the eradication of the disease. An immense amount of educational effort is necessary to acquaint the public with the simple measures needed to eliminate the disease, and a constant campaign of early discovery and diagnosis must be conducted to make progress in the fight. It is necessary, not only to provide the instruments and facilities for early diagnosis, but the people must be taught to make use of them. This is the main purpose of the Christmas seal sale."

"At present the funds raised by this tuberculosis seal sale are used for the support of the X-ray clinic at Oaklawn Sanatorium, which is the most important factor in discovering the disease. These X-ray films are free to the public, when there is reason to suspect the disease. This service, without cost to the patient, can only be continued if the sale of Christmas Tuberculosis Seals is maintained on a liberal basis."

Citizens who have not received seals in the mail, can obtain them by a phone call to Oaklawn Sanatorium. Phone 1237.

Television on the Farm

Buck Childs' home has become mighty popular ever since he got that television set—one of the few sets in our town, outside of Andy's Garden Tavern.

Not only do the kids stay home nights, but the neighbors drop in to see whatever's being telecast. And Buck and the missus always make them welcome, with a mellow glass of beer or ale (with cider and cookies for the youngsters).

While I guess everyone admits that television still has far to go, it's not hard to see that it will some

day be as much a part of American home and farm life as the temperate glass of beer that Buck serves, and the hospitality that goes with it.

And from where I sit, anything that adds to gracious living in America—brings folks together for temperate, quiet entertainment—is a boon to this home-loving land of ours. (We're thinking of buying a television set ourselves!)

Starlings Return To Trees In Central Park

The swallows will not come back to Capistrano for several months, but the starlings have returned to Central Park!

There was nothing romantic about the newest appearance of the starlings in the heart of the business district, from which they were driven a few weeks ago through the combined efforts of the fire department, Amvets and other citizens.

Branches of the big trees in the park are now bare—that is, until the winged pests swoop in by the thousands each evening just before dusk. The starlings take over even though there are no leaves to give them protection.

Their return puts matters back to where they started. The fire department used sirens and streams of water to frighten away the birds the first time. Veterans with shotguns helped clean out the trees, killing hundreds of birds. But the starlings didn't take the hint permanently.

Members of the city council discussed the nuisance at their meeting Monday night. They decided to provide a quantity of shotgun shells for the police department, which will go into action against the birds within a night or two. The fire department may also be called into action again.

FILM BISHOP IRKS ENGLISH MINISTER

London—(P)—Hollywood's idea of a bishop, exemplified by David Niven in "The Bishop's Wife," gives at least one English clergyman a pain. Especially Niven's mustache. Says the Rev. Colin Cuttill, priest-vicar of Southwark Cathedral, in the "Cathedral Magazine":

"No Anglican bishop would be seen on official occasions (dead or alive) in a wispy military mustache, nor would he live in the gilded opulence with which Hollywood surrounds him. Why must the church be caricatured in this way?"

**New Procedures
Inaugurated By
Evening Unit**

The Jacksonville Evening unit of Home Bureau met Friday at the home of its new chairman, Mrs. G. C. Richardson, with Mrs. Glenn Kendall, retiring chairman, acting as co-hostess.

A new custom for the unit, that of serving dessert upon arrival of members and guests, was inaugurated at the meeting. Refreshments are to be served on a competitive basis, scored by members, and prizes are to be

given at the end of the year to the hostess and co-hostess who have served the most palatable, attractive, appropriate, original and most economical dessert from the most decorative table.

The program opened promptly at 7:30 with two vocal solos, "Thanks Be to God" and "The Lord's Prayer" by Mrs. Lewis Raymond, accompanied by Mrs. Richardson at the piano. The unit then adjourned to the candlelit dining room where Mrs. E. H. Garlich, seated at the dessert table, gave the invocation and presided during the refreshment hour. The table, decorated with parafin autumn leaves, was centered with an ivory-covered Bible flanked with ivory candles.

During the business period, roll call was answered by each guest showing a home-made Christmas gift. Gifts were presented to the retiring officers, Mrs. Glenn Kendall, chairman; Mrs. Lloyd Magill, vice-chairman, and Mrs. Estelle Maurer, secretary.

After the business meeting, Mrs. Hauser, gift wrapper from Waddell's department store, gave a demonstration on wrapping Christmas gifts. Mrs. Hauser gift-wrapped all sizes of packages, using ribbon and plastic tape.

Mrs. Mildred Seeman, home adviser, gave the major lesson on "The History and Care of Silver."

Guests included Mrs. Robert Houston, Miss Anna Davidson, Miss Eileen Ferry, Mrs. Louise Nausley, Mrs. Clarence Black, Mrs. Ted Fairburn, Mrs. Charles Barber and Mrs. Edward Clancy. Mrs. Pearl Jett was welcomed as a new member.

The December meeting will be the Christmas dinner at the home of Mrs. Alvin Middendorf with Mrs. E. H. Garlich assisting as co-hostess. There will be a gift exchange.

Steal Basketball Equipment From Automobile Here

Several articles of basketball equipment were stolen Monday night from an automobile belonging to Dennis Ballard, 1157 South Diamond street, which was parked on a local street.

Ballard reported to the police department that missing from the car were a spare tire, basketball, a red basketball suit bearing the name "Virginia," and a shirt on which

the numerals 66 appeared. A pair of basketball knee pads also were taken. The glove compartment was forced open but nothing of value was found in it. The report of the theft was made at 9:45 p. m.

Offers Vacant Lot For Use As Skating Rink

Ice skating for a large number of children will be provided during cold weather this winter if a plan proposed by Norbert Kirk, 518 South Church street, is carried into action. Mr. Kirk sent a letter to the city council Monday night offering the use of a lot near South Church and Anna streets as a skating rink. He said that the lot would have to be leveled and banked, suggesting that the city do the work as a means of promoting recreation for children. Mr. Kirk said he would maintain the lot after it had been banked and flooded.

Several aldermen said the work probably could be done by the street department with the aid of a maintainer. Council thought the idea of building a safe skating rink for children was a good one. The matter was referred to the public improvement committee with power to act, on motion of Alderman Weaver, seconded by Alderman Flynn.

Baker Asks Economy
A budget report for ten months ending Oct. 31 was presented by Al-

derman Baker of the finance committee, showing that city finances are getting down to the bottom of the barrel as the year nears a close. The budget for the year is \$251,180 for general expenses, of which \$206,646.35 has been spent, leaving the city \$2,669.95 ahead of the allotted figures with still two months to go. "I am asking the heads of all departments to economize more than ever for the next 40 days, so that we can come out in reasonable shape," Alderman Baker said.

Budgeted funds overspent as of Oct. 31 included city hall, city building repair, city clerk's office, health department, street department, sewer department, garage fund and street lighting fund.

Shooting at City Dump
Alderman Costello of the health committee told the council that several articles of new equipment are needed at the city dump grounds, north of the city. He also called attention to promiscuous rifle shooting which has been done there, with bullets striking the caretaker's shed.

Unsupervised shooting at the city dump should be stopped, Alderman Costello declared. He said a number of signs will be placed around the property, warning against the discharge of firearms. Numerous claims in connection with water and light plant extension work were ordered paid.

IN LAST 16 MONTHS... MORE MEN VOLUNTEERED FOR THE ARMY than chose jobs in any other business

HERE'S THE RECORD

Between July 1, 1947, and October 21, 1948, a total of 214,616 forward-looking young American men signed original enlistment contracts with the U. S. Army. This number is greater than the number of men who obtained jobs with any other American business during the same period.

During this sixteen-month period the total of all enlistments in your U. S. Army amounted to 341,959. Of this group, 93,473 veterans returned to the Army—men who had discovered that the U. S. Army offered them more than civilian life. And in the same period 33,870 men re-enlisted to continue their satisfying, productive Army careers.

Thousands upon thousands of intelligent young men are finding worth-while, remunerative and satisfying careers in the Army. And every day more men are taking advantage of the unlimited opportunities the Army offers—opportunities that can't be duplicated in civilian life.

For instance, in the month of August, 1948, alone, 44,204 signed enlistment contracts of three years or more with the Army.

Today fifty-seven per cent of the volunteers in the Army have had previous military service—enjoyable, happy service which they want to continue.

This impressive record is solid, conclusive proof that the Regular U. S. Army offers the kind of career opportunity that the young men of our nation demand—an opportunity not only to learn but to serve at the same time.

WHY MEN RE-ENLIST

Ranking high among the reasons thousands of men give for selecting or continuing careers in the Army are the chances for rapid advancement in their chosen fields. Today the Army is expanding fast. This expansion means unlimited opportunity for promotion of skilled, highly trained men.

Advancement is important; however, there are many other good, sound reasons why so many intelligent men choose to stay in the Army. Here are but a few:

☆ On the day a man enlists the Army starts a retirement-benefit "stake" for him which continues to grow as long as he stays. At the end of six years he has established an equity which compares with a retirement benefit of \$6,250.

☆ Army technical schools offer the most advanced and specialized training in interesting, practical fields—give technical "know-how" you'd have to pay for in civilian life.

HERE'S WHAT THE NEW ARMY OFFERS YOU

Before you choose any career, compare it with a future in the Regular U. S. Army. Never before has the Army offered such tremendous opportunities for a real career to the alert, ambitious young men of America.

On the one hand you have the chance to serve your country while learning a new trade or skill—to further your education in important fields. And on the other hand there are the financial advantages, the job security, the retirement benefits, the chances for rapid promotion, the free medical and dental care that are yours in the Army.

A career in the U. S. Army is an opportunity that just can't be beat. And it's a lifetime opportunity! Get the full details now at your nearest U. S. Army and U. S. Air Force Recruiting Office.

Serious Disease Affecting Brain Found In Swine

Peoria, Ill., Nov. 23.—(AP)—Cases of a fatal brain disease called listeria—the same disease that causes sleeping sickness in man—have been discovered among hogs in Illinois.

This was reported today by Dr. F. W. Boebel, veterinarian and director of the state diagnostic laboratory in Peoria.

Dr. Boebel said this is the first time the disease has been found among swine in the state.

He said listeria is infectious and has a high mortality rate among animals. It also causes encephalitis (sleeping sickness) in man, he said.

The disease was first reported in Whiteside county near Sterling. It has since been found in DeKalb county and several cases are now under observation in Tazewell county.

The cause of the disease is not known and there is no known treatment, said Dr. Boebel. He suggested that animals showing symptoms of listeria be isolated and a veterinarian consulted.

The symptoms are posterior paralysis, generalized weakness, lack of muscular coordination, unsteadiness in gait, shaking and tremors around the head, fever and depression. Listeria is also found in sheep, cattle and sometimes poultry.
